

*A complete solution for TV
production in wet conditions
The first for Box Lenses*

RAIN DEFLECTOR SYSTEM

All weather outdoor video: News, Sports, Documentaries, Live Events

Now for the first time the producer, director and cameraman will be able to continue giving the viewer the illusion of being at the live event himself or herself. No water drop or snow flake will be able to break this link. A high speed rotating clear filter gives the cameraman a real time solution for shooting pictures in rain and snow without having to stop shooting and clean the lens of drops and accumulated snow.

The new and revolutionary Rain Deflectors come with matching camera rain cover and provide the ultimate protection for camera and optics.

The RD series have no gyro effect. This allows smooth operating.

Specifications RD210

Dimensions:

328mm(W) x 228mm(H) x 98.5mm(D)

Power: 30V 1.2Amp

Weight: 5.2Kg

Temp: -20°C to +35°C
